

Dema Locks Up Quality Blending And Dispensing

The new DEMA Blend Safe puts all the quality and reliability of the DEMA Blend Center into a lockable, self-contained system. That means you get precise proportioning of liquid detergents, disinfectants or other chemicals, while eliminating product misuse.

One-station and four-station configurations are available, to match the number of products and blend ratios you need. Each station can be adjusted to individual chemical feed rates with color coded threaded metering tips. Each push button is provided with a built in locking tab and can be color coded to

your product. The standard Blend Safe holds bottle sizes up to 5 liters, and can be customized to fit special bottle requirements.

The unit hooks easily to your water hose or pipe, with no electricity required. Molded plastic components mounted in a stainless steel cabinet assure maximum strength and durability.

To find out more about the new DEMA Blend Safe, just call 800-325-3362. We'll show you how easy it is to lock in safe, dependable chemical proportioning.
